Testimonials

David Scott ✓ · 2nd
Chief Operating Officer at ShipTime & Paid Inc. (OTC:PAYD)
Hamilton, Ontario, Canada

Wow, our new website is finally complete, and we couldn't be more thrilled! The entire process took just a month, thanks to the incredible teamwork and dedication from everyone involved.

Michael (A.) Trueman · 2nd
President & Cofounder at ShipTime Canada Inc.
Oakville, Ontario, Canada

We have been working with WebOsmotic since the inception of our company four years ago and they have been instrumental in helping us build our core business applications. They have been great team players, working collaboratively to turn our business into working software solutions.

Riley Mack ✓ He/Him · 2nd
Web Product Lead | Building Scalable WordPress Ecosystems |
Remote Team Strategist
Beresford, South Dakota, United States

I had the pleasure of collaborating with WebOsmotic on developing custom client-based e-commerce stores. Their expertise in coding was evident in the fantastic results they delivered. Their commitment to quality, attention to detail, and collaborative approach make them an invaluable asset to any development team.

Matt Abar · 3rd
CEO at FinFolio Note: I rarely check LinkedIn, you can contact me at mattabar@finfolio.com
Englewood, Colorado, United States

WebOsmotic Team did a great job for us over 2 full years. They have great attention to detail and built some amazing screens for our material design app. Highly recommended.

Susan Powell ✓ · 2nd
Founder | CEO | Not for profit professional | CITP/FIBP certified |
International trade specialist | Love working in the food & beverage industry
Port Perry, Ontario, Canada

#CFEA has launched a new website through the collaborative efforts of WebOsmotic Private Limited and Saina Shaikh. Shaikh's team has successfully modernized our website, enhancing its user experience.

Dillon Pinto ✓ · 2nd
Business Executive | Strategy Development & Execution | Sales Leader | Business Development |
Canada

WebOsmotic delivered an outstanding experience while developing our websites (CravinglyGood & StreetBrands). Their project management was seamless, communication was clear, and they ensured all requirements were understood and executed perfectly.

Our Work in HR Tech

Recruitment Smart Transforms Hiring with AI-Powered Recruitment Intelligence

UNITED KINGDOM

Client's Vision

To build an end-to-end AI recruitment ecosystem that automates sourcing, screening, interviewing, and candidate evaluation—helping organizations reduce time-to-hire, improve hiring quality, and make more structured, data-driven recruitment decisions.

INTELLIGENT HIRING INPUTS

- Interview Scheduling
- Candidate Screening
- AI Interview Copilot
- Team Collaboration

The screenshot displays the Recruitment Smart dashboard. At the top, it shows a 'Live Interview - Microsoft Teams' window with two participants. To the right, there is a 'Real-time Transcription' section with a chat log and an 'AI Interview Scorecard' showing a score of 85/100, labeled 'Strong Candidate'. Below these are sections for 'Top Candidates' and 'Upcoming Interviews'. The 'Top Candidates' table is as follows:

Rank	Name	AI Score	Rank
1	Olivia Smith	92	Excellent
2	Daniel Brown	87	Very Good
3	Sophia Lee	78	Good

The 'Upcoming Interviews' section shows a calendar view with two interviews scheduled for Wednesday, 14th: Olivia Smith (Product Manager) at 10:00 AM and Daniel Brown (Data Analyst) at 02:00 PM.

BETTER HIRING OUTCOMES

- Faster Time-to-Hire
- Better Hiring Quality
- Structured Decisions
- Recruitment Automation

- **AI-Powered Interview Copilot:** Real-time interview assistance and candidate evaluation within Microsoft Teams
- **Interview Intelligence & Analytics:** AI-driven transcription, sentiment analysis, and structured scoring
- **Automated Candidate Screening:** Intelligent assessment and ranking based on skills, experience, and interview performance
- **Enterprise Recruitment Automation:** Unified workflows for scheduling, interviewing, collaboration, and hiring decisions

Tuki Streamlines Workforce Scheduling & Shift Operations

UNITED KINGDOM

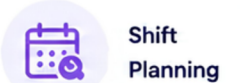

Client's Vision

To create a unified workforce management platform that helps hospitality and food service businesses efficiently manage staff scheduling, shift operations, communication, and employee engagement through a single digital solution.

PLAN & ORGANIZE

Employee Availability

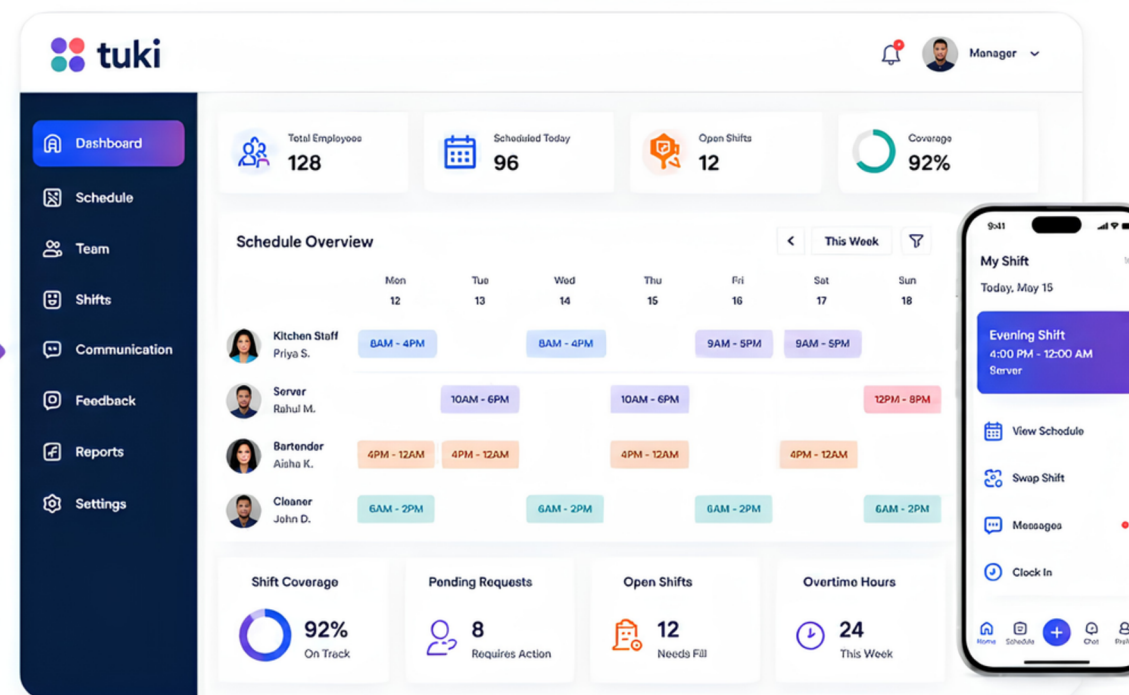

Shift Planning

Staff Communication

Feedback Collection

DRIVE BETTER OUTCOMES

Reduced Scheduling Conflicts

Improved Workforce Utilization

Better Communication

Operational Efficiency Gains

- **Smart Workforce Scheduling:** Simplify shift planning, staffing allocation, and working hour management
- **Team Communication Hub:** Centralized communication for seamless coordination across teams

- **Employee Engagement & Feedback:** Enable ratings, feedback collection, and continuous workforce improvement
- **Operational Shift Support:** Provide real-time tools and support for smooth day-to-day operations

SwoopTalent Powers AI-Driven Talent Intelligence & Workforce Planning

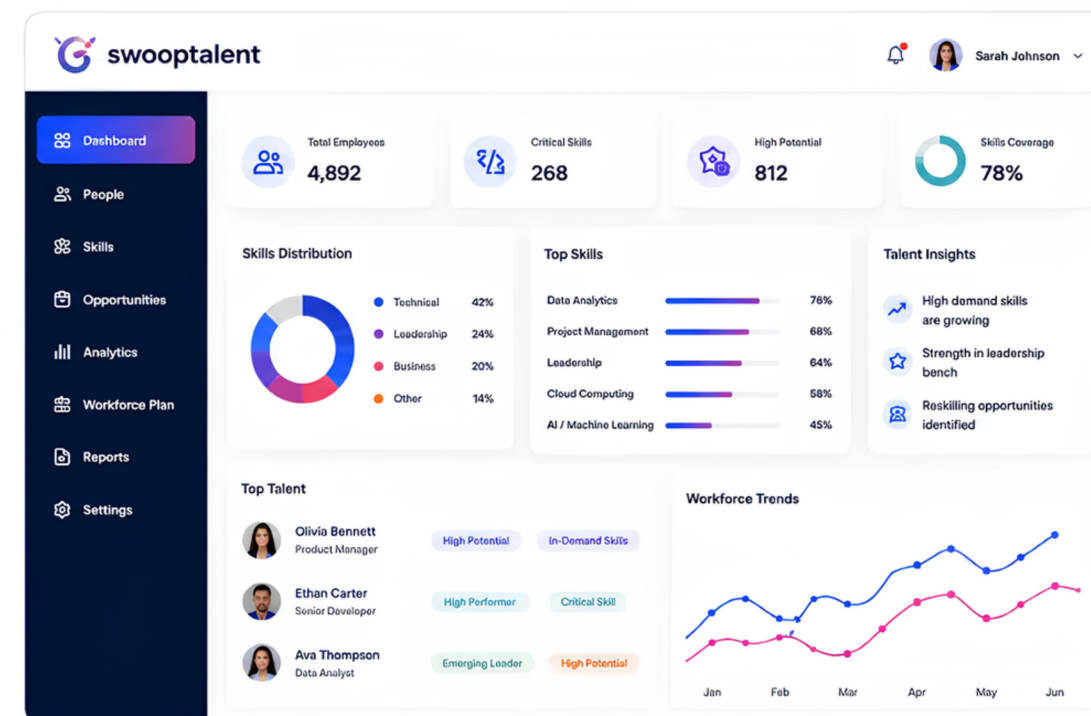

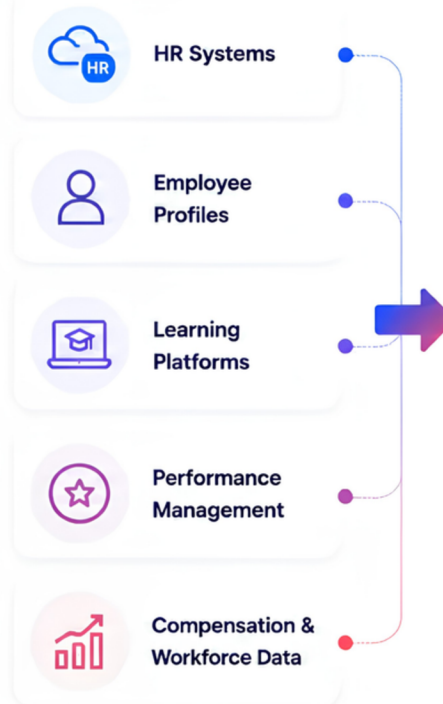

USA

Client's Vision

To create a unified talent intelligence platform that consolidates workforce data from multiple HR systems, enabling organizations to make better decisions around employee development, internal mobility, workforce planning, and talent management.

UNIFIED WORKFORCE DATA

ACTIONABLE OUTCOMES

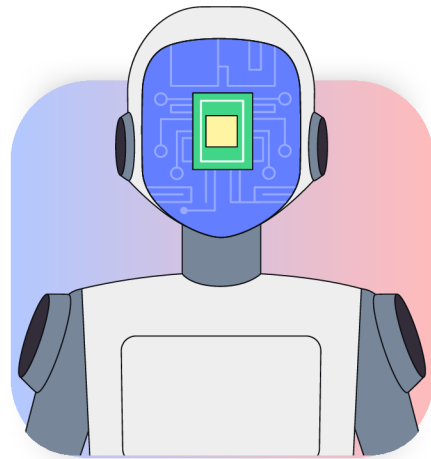

- **Talent Data Intelligence:** Unified workforce visibility across HR systems
- **Workforce Analytics:** Identify skills, capabilities, and talent trends

- **Internal Opportunity Matching:** Connect employees with jobs, projects, mentors, and learning opportunities
- **Strategic Workforce Planning:** Support reskilling, upskilling, and talent redeployment initiatives
