# Testimonials

**David Scott** ✓ · 2nd  
Chief Operating Officer at ShipTime & Paid Inc. (OTC:PAYD)  
Hamilton, Ontario, Canada

Wow, our new website is finally complete, and we couldn't be more thrilled! The entire process took just a month, thanks to the incredible teamwork and dedication from everyone involved.

**Michael (A.) Trueman** · 2nd  
President & Cofounder at ShipTime Canada Inc.  
Oakville, Ontario, Canada

We have been working with WebOsmotic since the inception of our company four years ago and they have been instrumental in helping us build our core business applications. They have been great team players, working collaboratively to turn our business into working software solutions.

**Riley Mack** ✓ He/Him · 2nd  
Web Product Lead | Building Scalable WordPress Ecosystems |  
Remote Team Strategist  
Beresford, South Dakota, United States

I had the pleasure of collaborating with WebOsmotic on developing custom client-based e-commerce stores. Their expertise in coding was evident in the fantastic results they delivered. Their commitment to quality, attention to detail, and collaborative approach make them an invaluable asset to any development team.

**Matt Abar** · 3rd  
CEO at FinFolio .... Note: I rarely check LinkedIn, you can contact me at [mattabar@finfolio.com](mailto:mattabar@finfolio.com)  
Englewood, Colorado, United States

WebOsmotic Team did a great job for us over 2 full years. They have great attention to detail and built some amazing screens for our material design app. Highly recommended.

**Susan Powell** ✓ · 2nd  
Founder | CEO | Not for profit professional | CITP/FIBP certified |  
International trade specialist | Love working in the food & beverage industry  
Port Perry, Ontario, Canada

#CFEA has launched a new website through the collaborative efforts of WebOsmotic Private Limited and Saina Shaikh. Shaikh's team has successfully modernized our website, enhancing its user experience.

**Dillon Pinto** ✓ · 2nd  
Business Executive | Strategy Development & Execution | Sales Leader | Business Development |  
Canada

WebOsmotic delivered an outstanding experience while developing our websites (CravinglyGood & StreetBrands). Their project management was seamless, communication was clear, and they ensured all requirements were understood and executed perfectly.

# Our Work in Logistics

# Parcelport Powers Smart, Secure Last-Mile Logistics

CANADA

## Client's Vision

To build a scalable smart locker ecosystem that enables secure, automated parcel pickup and drop-off—reducing failed deliveries, improving parcel safety, and streamlining logistics operations across residential and commercial spaces.

- **End-to-end parcel automation:** secure locker-based pickup and drop-off workflows
- **IoT device monitoring:** track hardware status, connectivity, and system health
- **Centralized management platform:** control lockers, users, and deliveries in real time
- **Automated notifications system:** real-time alerts for deposits, pickups, and updates

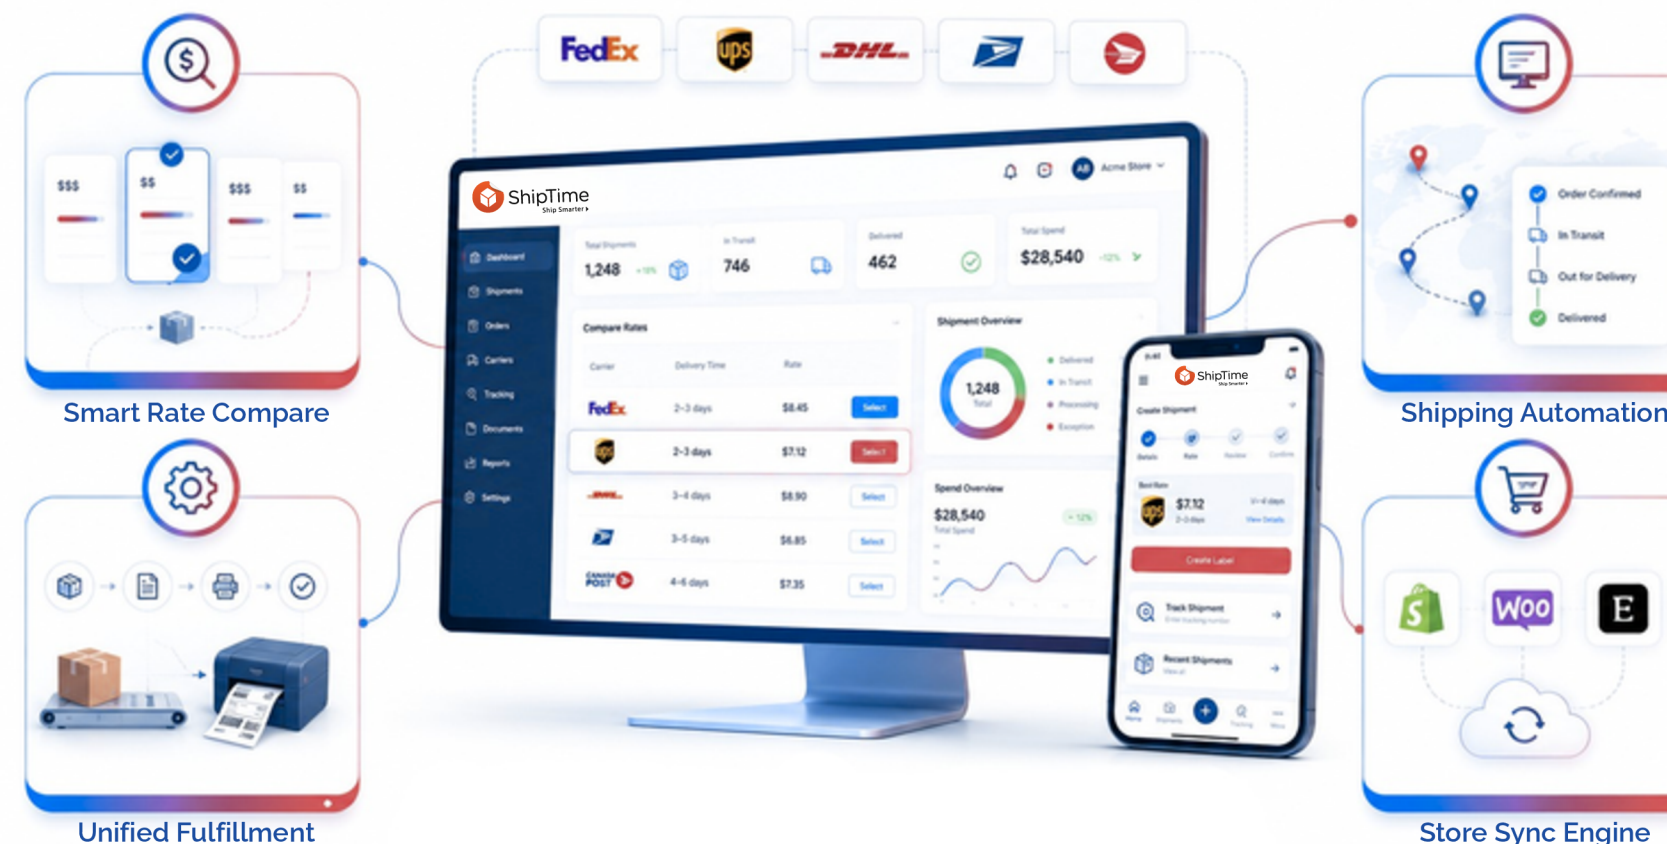

# ShipTime Simplifies Multi-Carrier Shipping for E-commerce

CANADA | USA

## Client's Vision

To create a unified shipping platform that reduces operational complexity and costs by enabling businesses to compare carriers, automate shipping workflows, and manage fulfillment from a single system.

- **Real-time rate comparison:** choose the most cost-effective shipping option instantly
- **Centralized shipping dashboard:** manage carriers, shipments, and tracking from one platform

- **Automated label & documentation:** generate labels, invoices, and customs forms effortlessly
- **E-commerce integrations:** direct order sync from Shopify, WooCommerce, and Ecwid

# Warehowz Powers On-Demand Warehousing & Flexible Logistics

 CANADA |  USA

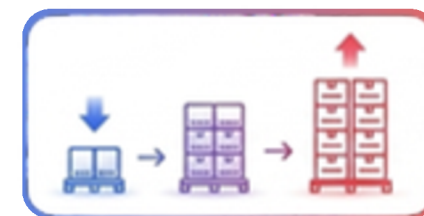

## Client's Vision

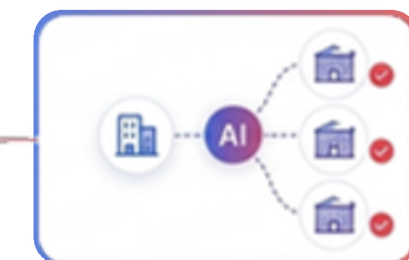

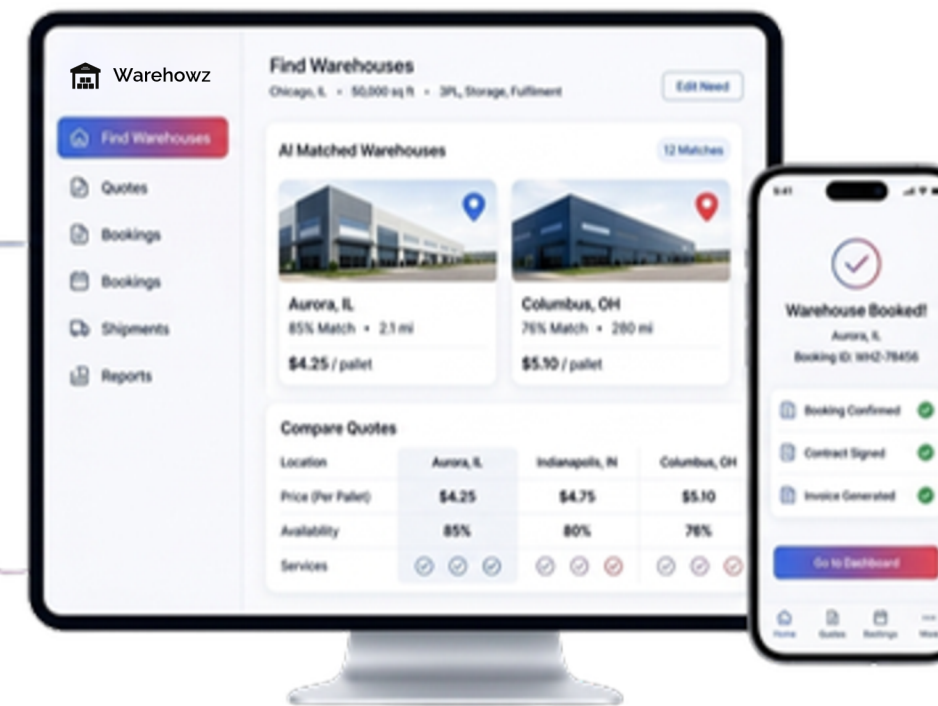

To build a digital marketplace that connects businesses with the right warehouse space on demand—reducing fixed logistics costs, improving flexibility, and simplifying sourcing, contracting, and operations through a single platform.

 Nationwide Warehouse Access

 Scalable Storage Space

 AI Warehouse Matching

 Digital Operations Workflow

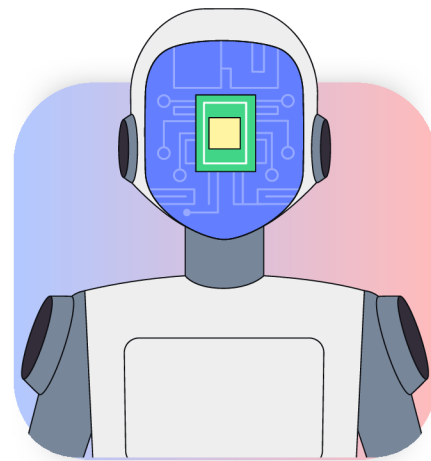

- **On-demand warehouse discovery:** find storage and fulfillment partners based on location and needs.
- **Quote comparison & selection:** evaluate pricing, services, and capabilities in one place.

- **Guided requirement workflow:** quickly submit needs and receive matched quotes.
- **End-to-end digital process:** from on boarding to billing, everything managed within the platform.
